To support a full-time master’s degree and 1 year research study exploring women’s narrative experiences of contemporary childbirth

Research Project Advisory Board Membership/Participation

Erasmus+ Key Action 2 Strategic Partnerships for Higher Education: Develop and test an innovative, dynamic and flexible Spiritual care Matrix for nurse and midwife education
STRAWB Study (University of Liverpool): To assess a routine programme of identification and self-help for women who have experienced their childbirth as traumatic

BABY PANDA (University of York): NIHR HS&DR Yorkshire and Humber cohort study and perinatal mental health (chair)

NSPCC Project: Developing services to support women with perinatal mental health

BMJ-Technology Assessment Group: Clinical expert and advisor for a project evaluating treatments for Postnatal Depression

NHS Health Scotland funded project: Raising the issue of Child Health Weight: Developing a training package. Project led from within Food Health and Education Group, Institute for Learning, University of Hull

Health Foundation funded project led by East of England Neonatal Neuroprotection Team: A two year project to develop services across the East of England to help babies and families following the birth of a child affected with HIE (Hypoxic Ischemic Encephalopathy - starvation of oxygen around birth). The project involves trying to improve parental experience and evaluation of project. Invited onto the advisory board at the recommendation of BLISS (the special care baby charity).

Involvement in Other Research
Analysing, interpreting and publishing data on BMI and disabled women’s experiences of maternity care from the UK wide recorded delivery data set (NPEU 2006).

Hull and East Yorkshire (HEY) NHS Trust project exploring the impact of STAN monitoring in labour. Project findings have been disseminated through conferences and publications and the findings have led to the development of a training workshop which has been delivered regionally to Consultant obstetricians, obstetric medical staff and midwives.

Working with a HEY NHS Trust research midwife to undertake a case series study of the incidence and prevalence of peripartum cardiomyopathy.

Working with HULL CCG to deliver aspects of the Hull Maternity Workplan, elements include a stillbirth audit and a telehealth for maternity care project
