

UNIVERSITY  
*of* HULL

**Request Reference: 3449**

FOI Request dated 08/07/2025 –

*Number of staff within your organisation who have received formal training in Artificial Intelligence over the last three years, broken down by year.*

- *I'd like to know the number of staff trained e.g. 2025: 450 staff trained*
- *Courses attended: AI ethics, basics etc*
- *Estimated cost of training: £30,000*

**Response**

- 2023: 36 staff trained
- AI and ChatGPT for Professional Services: the basics
- No cost
  
- Digital Skills: AI Special – a weeklong course designed to support colleagues in working with AI.
- We had 142 registrations and 42 completed the course
- We have also ran several sessions with academic colleagues - estimated the total number of staff at 150
- This was free to use training so cost to the university would be our time in creating the course but we do not hold this figure
  
- Number of unique learners: 74
- Skill: Artificial Intelligence for Business (includes 27,615 pieces of unique content)
- Cost is not applicable for individual courses, we pay an annual LinkedIn Licence Fee for a suite of content (not just specific to AI)

Please note staff may also be trained in AI in other ways however they are not recorded e.g. outside of working hours etc.
