

## University of Hull – George W Gray International Chemistry Scholarship

### Background

Fifty years ago, the molecules that made LCDs and flat screens possible were invented by Chemists at the University of Hull. To celebrate this world changing invention we are offering up to **50 international scholarships** over the next 3 years for entry to study full time undergraduate BSc Chemistry and MChem Chemistry

### Award

- Up to 50 £9000 tuition fee reduction, for international students entering level 4, 5 or 6.

### Duration of Award

The award will cover every taught year of study, i.e. 3 years for students on BSc or 4 years for MChem

### Eligibility

To be eligible for George W Gray scholarship all applicants must:

- Be an 'overseas' student for fee paying purposes
- Have received an offer of study on an Undergraduate chemistry degree programme at the University of Hull
- Have achieved or working towards high school chemistry equivalent to UK A-level grade B.
- Have achieved or working towards equivalent of 112 UCAS points.
- Have achieved IELTS 6.5 overall, with 5.5 in each skill or equivalent before the application deadline.
- Pass a chemistry aptitude test set by the University of Hull. The pass mark will be 60% but may be adjusted as needed if the number of applications received results in the need to do so.

### Restrictions

- The award applies to international students holding an offer to enter a full time, Hull-based chemistry (Bsc or MChem) Undergraduate taught degree programme.
- The Scholarship is payable as a credit against tuition fees only and does not cover living expenses.
- The Scholarship does not apply during a placement year
- No student shall be considered for a scholarship without the University having first having made an offer to study on an eligible course, and their successful completion of the University of Hull chemistry aptitude test.
- Applications to study an eligible course must be submitted before the closing date of 23rd August 2022.
- Scholarships may only be awarded to applicants satisfying general university, departmental and programme of study regulations.
- The answers to chemistry aptitude test must be the applicants own unassisted work.
- No guarantee of a scholarship can be made where an applicant indicates that he/she wishes to defer entry beyond September 2022/23.

- All applicants must be able to demonstrate that they have the necessary living expenses as required under the UKVI regulations prior to the University issuing a Student Visa certificate of sponsorship.
- No scholar may hold more than one University award.
- If you have been awarded a scholarship, you will be notified in writing within 10 working days of completing the Chemistry aptitude test. Students must respond to the initial e-mail within 5 working days of being awarded the scholarship. If a response has not been received, the award may be given to another applicant.
- The University of Hull reserves the right to withdraw the scholarship at any time prior to an offer being made.

### **Deadline**

- The deadline for submitted applications for the University of Hull GW Gray scholarship is 23<sup>rd</sup> August 2022.
- Applications for the scholarship may be closed before the deadline if enough suitable candidates have applied.

### **Selection**

Only applications meeting the criteria stated above will be sent to the scholarship board for final assessment. The scholarship board will assess successful applications based on qualification and aptitude test. The scholarship board will be looking for the very highest academic achievers. They will also look at applicants' professional experience and career aspirations, detailed on the personal statement submitted as part of the application process.

The scholarship board will be made up of Mark Lorch, Tim Prior and Emma Payne.
