Introduction to ePAD

The West Yorkshire and Humber ePAD

The ePad (electronic practice assessment document) has been designed to record all of the placement requirements, including meetings, attendance records, the achievement of Practice Standards and Essential Skills Clusters.

It is your responsibility to work closely with your Practice Supervisors and Practice Assessors to complete this document.

It will need to be processed through formal University systems.

Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning

v2018.1

Guidance for students

GETTING STARTED

- Take a look at your 'custom resources' and see the templates that are available to you
- Download the PebblePocket app and login to see the templates you can complete offline
- We have created links to some important resources to help you with ePAD. Please go to your Sept 19 canvas site and look in modules for the full list of guidance and resource materials.

EVERY WEEK

Ensure you complete the attendance record and log any absences. It is important that you complete an attendance record for each week you are in practice and that your Practice Assessor verifies it after each working week. If you are absent you must also complete an absence record. Please ensure that you complete the forms correctly following the instructions from the training sessions. If you need a reminder about how to do this please click on the links below for guidance:

Attendance: https://canvas.hull.ac.uk/courses/55346/files/2127366?module_item_id=301655

Absence: https://canvas.hull.ac.uk/courses/55346/files/2127368?module_item_id=301657

SUBMITTING

You do not need to submit this document as it has already been set to 'Auto Submit', every time it is saved the submission is updated.

KEEPING IT PROFESSIONAL

The first activity you are asked to complete as part of the ePAD is an 'About me' page. Remember, your ePAD will be seen by countless practice supervisors and practice assessors and academic staff. Therefore, you should ensure that you come across as a professional. You must put your full name, student number and field of nursing on this page. This is the minimum mandatory requirement. You can develop and personalise this page further if you wish. Click on the link below for guidance on how to do this:

https://canvas.hull.ac.uk/courses/55346/files/2049117?module_item_id=275104

Think about the images you are uploading, do they show a professional nurse?

Sharing your ePAD with your practice assessor/practice supervisor

Your practice supervisors and practice assessor will need to see your ePAD workbook so that they can complete the assessments and relevant sections for each practice placement. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement. You need to share your ePAD with them to allow this. This must be ready for your practice supervisor/practice assessor on the first day of placement. It is recommended that you do this before the placement begins at the pre-placement meeting. The link below reminds you how to do this:

https://canvas.hull.ac.uk/courses/55346/files/2096195?module_item_id=291569

Evidencing your Alternative Field Learning (AFE) Outcomes

Please see the guidelines for completing the AFE pages by clicking the following link:

Saving your work

Remember to save your work in ePAD as you work on it. Your practice supervisors and practice assessors will only be able to see work that you have uploaded or saved in it. Your save button is at the top of the page. Please remind your practice supervisors and practice assessors to save when they have worked on your ePAD; their save button is at the bottom of each page.

Guidance for Practice supervisors and practice assessors

- Ensure you scroll to the bottom of the page to save and release your comments;
- Ensure that you have checked all practice standards, skills, medication logs and testimonials;
- Make sure you log off from the device you are using by closing your web browser.
- If you require help with ePad there is an ePAD guidance booklet which you can access from the University of Hull's Placement Learning Unit webpage via the link below:
- There is also further information for practice supervisors and practice assessors on the same website:
- <https://www.hull.ac.uk/faculties/fhs/shsw/placement-learning-unit.aspx>
