You can now proceed to complete the evaluation. Please ensure that you read the survey questions carefully and complete the evaluation fully. Where it requires an explanation to support a response you must complete the text box. The survey will alert you if you have not fully completed the evaluation so please complete any missing fields if prompted. Your evaluation will not be fully submitted until all the survey questions and text boxes have been completed.

You must record the date of completing the evaluation in the final interview section in your Practice Assessment Document.

Evaluate the right placement

It is extremely important that you evaluate the correct placement. Sometimes you may have difficulty finding your placement in the placement list in PARE.

GP placements for example, are located in Organizations known as CCG, as in this example:

Region/Group:	Yorkshire & Humber	~
Organisation:	NHS Hull CCG (22)	~

Please take the time to check you have the right placement before completing the evaluation.

Talk to your placement supervisor/assessor in the first instance as they will know the name of your placement and the host trust/organization.

If you are a nursing student, please do **not** evaluate placements indicated as Dietetics, Physio or OT. You will see some placements like the list below. These are only for Allied Health Professional students to evaluate, nursing students must not evaluate these.

Castle Hill Hospital - CHH Oncology (Dietetics)	Yorkshire & Humber	PR16492	Ē
Castle Hill Hospital - Critical Care/ Surgery - Physio	Yorkshire & Humber	PR9253	E
