

31. Feasibility investigation of a bonding method for fibrous materials and aluminium sheets employed in evaporative cooling systems, Peng Xu, Bing Wang*, Kevin Fancey, Xudong Zhao, **Xiaoli Ma***, 16th International Conference on Sustainable Energy Technologies (Set 2017), Bologna, Italy, 17th-20th July 2017.

32. Study on a hybrid solar indirect-expansion heat pump system associating the novel mini-channel solar thermal PV/T panels for space heating, Jinzhi Zhou, Xudong Zhao, **Xiaoli Ma***, Yi Fan, 16th International Conference on Sustainable Energy Technologies (Set 2017), Bologna, Italy, 17th-20th July 2017.

33. Experimental and numerical study on the air flow in the irregular exchanger channels of a counter-flow indirect evaporative cooler, Peng Xu, Yuting Liu, Xudong Zhao, **Xiaoli Ma***, The 1st “The Belt and Road Initiative” International Conference on Sustainable Refrigeration and Air Conditioning (The 1st ‘TBRI’ ICSHVAC), Xi’an, China, 19-21, Oct, 2016.

34. Experimental study on fabrics applied to the wet surface of an indirect evaporative cooler, Peng Xu, **Xiaoli Ma**, Xudong Zhao, 15th International Conference on Sustainable Energy Technologies (Set 2016), Singapore, 19th -22nd July, 2016.

35. Experimental study of a novel PV/micro-channel-heat-exchanging collector based heat pump system, Jinzhi Zhou, **Xiaoli Ma**, Xudong Zhao, 15th International Conference on Sustainable Energy Technologies (Set 2016), Singapore, 19th -22nd.

36. Numerical study of novel corrugated heat and moisture exchanging sheets applied to counter-flow dew point air cooler, Peng Xu, **Xiaoli Ma**, Deying Li , Yangzhen Shi, Xudong Zhao, Proceedings of 14th International Conference on Sustainable Energy Technologies (Set 2015), Nottingham, UK, 25-27th.

37. Economic and Environmental Analyses of a BIPV-PCM-Slurry Based Energy System, Zhongzhu Qiu, Xudong Zhao, **Xiaoli Ma**, Pengli, Proceedings of 14th International Conference on Sustainable Energy Technologies (Set 2015), Nottingham, UK, 25-27th

47. Investigation of Method of on-line Comprehensive Measurement for Large-Scale Workpiece's Form Errors, Xiaoli Ma*, Journal of Metrology and Test Technology, 1997 No.6, 3-5.

50. The Airflow Characteristic and Design Parameters for Horizontal and Laminar Flow Clean Areas., Xiaoli Ma, Bing Shi and Xudong Zhao, Journal of Taiyuan University of Technology No.4,1997, 44-47.
