**Response**

We can only provide data for 2020 and 2021 due to historic data being stored on the legacy system. We cannot report on how many of those were offered interviews as these decisions are overwritten when we make offers. Please note that this data is for **applications** rather than **applicants**; some applicants have submitted more than one application per year and the number of offers made is based on individual applications.

Care experience is not a mandatory question on the application forms so there is the chance some have chosen not to declare, therefore those will be unaccounted for.
