

Request Ref: 2854

FOI Request dated **18/04/2023** as follows –

- *I would like to request details on what cybersecurity education your students studying on degrees related to primary school teaching receive.*

Response

Our students do not study “cybersecurity education”. However, for all placement briefings they do receive some training about maintaining their own safe and professional online presence. Also, when they go into schools, they are inducted into the schools systems for GDPR/data safety requirements. This happens every year. As part of the School Based research project, Primary Teaching undergraduate students learn about GDPR within ethics training.
