

# MSc Flood Risk Management Spring Conference

1pm-5pm | 8 April 2025 | On Campus  
Free entry | Undergraduates from all disciplines welcome

## Programme

**Venue:** Teaching Room 3, Brynmor Jones Library,  
University of Hull, Cottingham Road, HU6 7RX

### Session 1 (1pm)

#### Welcome

*Dr Steven Forrest, Programme Director for the MSc in Flood Risk Management, introduces the conference themes and outlines the urgent challenge of flooding.*

#### Community Waterscapes

*Dr Hannah Worthen, Post-Doctoral Research Associate in Historical Geography, introduces the 'Community Waterscapes' project. Hannah is a co-investigator of this HIKE funded project that focuses on working with communities to share knowledges of cultural and environmental change in watery spaces.*

#### Flooding in Accra and Hull

*Dzifa Adimle Puplampu, PhD Student in Human Geography, presents her comparative research into flooding in Accra (Ghana) and Hull.*

### Session 2 (2pm)

#### Flooding in Venice

*Petra Codato, PhD Student in Human Geography (Water Cultures), introduces her research into flooding in the Venice (Italy) context.*

#### From Noah to Now

*Prof. Stewart Mottram, Professor of Literature and Environment, introduces the 'From Noah to Now' project. Stewart leads this UKRI Arts and Humanities Research Council funded project to explore how we harness the power of historical flood stories to build future resilience to flooding in coastal and estuary communities.*

#### Exploring Future Careers

*Mark Felgate, Careers Consultant for Science and Engineering, provides important information on post-MSc career pathways and support available from the University of Hull.*

### Serious Gaming Session (3pm)

*Current MSc Flood Risk Management students introduce and facilitate their serious games on the topic as part of their 'Managing Flood Incidents' module.*

#### Closing Remarks
