

Guidance for applicants – University of Hull scholarships

This guidance applies to the research projects based in Hull York Medical School (listed below). You will need to apply using the University of York application system.

Diabetes and its comorbidities: a multidisciplinary approach

Diabetes and thrombosis: mechanistic links and novel interventional opportunities.

Development and characterisation of novel antioxidant H₂S-releasing compounds to prevent diabetic kidney disease

The underlying causes of the diabetic foot: revascularisation deficit and novel strategies to boost healing.

Dementia and diabetes: the challenges posed by comorbidity

Hull University Theragnostics

New strategies for the modular design of theragnostic radiopharmaceuticals

Identifying the next generation of theragnostic targets in cancer

Development and clinical translation of theragnostic agents

Molecular Imaging and Theragnostics for Wound Healing

Addressing Health Inequalities in Advanced Illness

Improving cancer pain management among ethnically diverse communities in Humber and North Yorkshire, and the health professionals caring for them

Supporting Voluntary, Community & Social Enterprises engagement and work with communities about advanced illness

Integrated Care Systems: can they reduce health inequalities for patients with advanced disease?

Roles and experiences of informal carers providing care to people with advanced illness in Sub-Saharan Africa

Guidance

Most of the application form should be self-explanatory but here are some sections where you may need additional help.

Additional Details

| Question | How to answer |
|---|-------------------------|
| If you are applying with assistance from one of York's overseas agents, please tell us which one. | Please leave this blank |
| If you are applying through a collaborative agreement, please tell us which one | Please leave this blank |

Research Proposal

| Question / field | How to answer |
|---|--|
| In the Preferred supervisor or research group, or field of research section | Enter the supervisor for the project as listed in the advert. |
| In the Research Proposal Summary | Enter the PhD project TITLE as listed in the advert |
| For the research proposal (file upload) | You do not need to upload a research proposal. Please upload a word document with details of the scholarship project you are applying for. |
| Personal Statement | Your personal statement should demonstrate your motivation for undertaking the programme at Hull York Medical School in addition to anything else not included in the research proposal. |
