READY TO TAKE YOUR CAREER IN SUPPLY CHAIN LEADERSHIP FURTHER?

WE ARE.

Stay up to date and ahead of the game with the latest thinking in logistics and supply chain management.

Underpinned by a specialist BSc Professional Practice in Supply Chain Leadership degree, apprentices will discover the advanced skills they need to progress, while keeping their employers at the forefront of their industry.

The University of Hull is the only UK university with a Logistics Institute drawing talented academic staff from across the world.

The specifics

Duration: Usually around 36 months (dependent on prior knowledge and experience).

Level: 6

Suitable for:

Anyone who strategically manages, knowledge-shares and peer-assists stakeholder relationships across the supply chain. Roles could include, but aren't limited to:

- > Chief supply chain officer
- > Forecasting manager
- > Global trade manager
- > Inbound / export supply manager
- > Logistics analyst
- > Senior business development executive
- > Senior supply chain executive
- > Solutions analyst
- > Supply chain analyst
- > Project manager.

WHAT IT MEANS FOR YOUR BUSINESS

Degree apprenticeships aren't just beneficial for employees - they mean great things for employers too.

They'll increase the company skillset

Apprentices will bring their newfound knowledge back to their colleagues, keeping businesses at the top of their game.

They advance the industry

As one business grows and develops, its competitors must try to keep up - leading to new discoveries, advanced technology and progression across the entire sector.

They attract the best new talent

New recruits will be drawn to a business that cares about their progression. For hard-working, motivated individuals, the opportunity to learn while working will be a big benefit.

They boost morale, motivation and productivity

Because employees feel valued when they know they're being invested in - and are more likely to stay where they are, and keep giving back.

How is it delivered?

This apprenticeship is delivered through a blend of campus-based learning and on the job training, as well as portfolio-building and self-directed study.

Apprentices will be expected to work flexibly in order to undertake their own additional study and research. Activities include online learning, work-place mentoring, block release classes, portfolio building and more.

How is it assessed?

To complete the course, apprentices will take an End Point Assessment with The University of Hull. This assessment will take a number of things into account, including work based projects and a portfolio of evidence.

WHAT DOES IT INVOLVE?

By completing a range of relevant modules, apprentices will gain a BSc Professional Practice in Supply Chain Leadership

They'll complete a portfolio of evidence as well as work-based projects, and will have the opportunity to seek membership of both the Chartered Institute of Purchasing and Supply (CIPS) and the Chartered Institute of Logistics and Transport in the UK (CILT).

Some examples of modules that apprentices may complete are:

- > Introduction to Logistics and supply chain management
- > World economy
- > Leadership and change - work based project
- > Supply chain strategy and network design
- > Accounting and finance
- > The Business environment
- > Logistics customer service and marketing
- > Business process improvement - work based project
- > Procurement and supply chain operations
- > Supply chain information and big data
- > Supply chain sustainability and the environment - work based project
- > Global logistics and port management - work based project.

WHAT ARE THE OUTCOMES?

By the end of the programme, apprentices will be able to show that they have developed their skills and understanding of the field to an appropriate level, including:

- > Change management
- > Commerce and Globalisation
- > Legislation and Compliance
- > Procurement and Supply chain methodology
- > Technology, analytics, design and maintenance
- > Distribution, inventory, transport and warehousing
- > Quality management.

They will also demonstrate the following behaviours in the workplace:

Adaptive

Apprentices will show that they can be flexible to changing business needs, and that they seek out new opportunities.

Agility

This shows the capacity to understand connections and relationships across all elements of a supply chain, including working with others and building teams.

Leadership

Apprentices will become role models and agents for positive change, as fair, open minded leaders with excellent decision making and opportunistic skills.

Entrepreneurial

A creative approach at identifying areas for growth, and managing risk versus gain.

Influential

Apprentices will be open to negotiation and will be approachable by all channel partners.

Resilience

Self-motivating and able to cope with adversity, apprentices will show an ability to learn from experience and work in a high paced environment.

Values

Apprentices will promote a behavioural safety culture, sharing the vision and values of supply chain strategy in an enthusiastic and positive way.

WHAT ARE THE ENTRY REQUIREMENTS?

Alongside general requirements, applicants must also have:

- > Evidence of Literacy and Numeracy at level 2 or above
- > Two A Levels, or equivalent qualifications
- > Relevant work experience
- > A written letter of recommendation from the employer, outlining the applicant's suitability
- > A faculty interview.

In every case, we try to be as flexible as possible - so please contact us to talk about your options.

APPRENTICE SUPPORT

Combining study with full time work can be challenging.

At the University of Hull, we understand that apprentices may need more support, and we do all we can to help.

That's why all Supply Chain Leadership apprentices are assigned a named academic support tutor, who will provide mentoring and portfolio support, work place progression reviews and end of year progression reviews.

We also request that all apprentices have a named employer mentor during their time on the course, to provide guidance and support in the workplace.

And because we understand that mature apprentices' needs are different to those of a traditional undergraduate, we also offer access to a Mature Student Adviser for apprentices aged 21 and over.

Apprentices at the University of Hull also have full access to:

- > The Student wellbeing, learning and welfare support team
- > The Skills Team (Brynmor Jones Library)
- > AskHU (Student services centre)
- > The Apprenticeship team.
